

# A MULTI-SPORT SYNTHETIC FIELD for Tomaree

***We at Nelson Bay Hockey Club are calling for expressions of interest from local sporting clubs (and interested others) who can see the benefits to be gained by establishing a high-quality Multi-sport synthetic field in our Tomaree area.***

We see many advantages of playing our sport on a synthetic field. *MANY* smaller centres across NSW and Australia already have a synthetic sporting field for their community to use.

The turf suitable for playing hockey is also suitable for **playing** a variety of sports including **Futsal, Netball, Tennis, Junior Cricket, Running**, etc. The turf is excellent for **training** for most other sports including **Touch Football, Rugby League, Rugby Union**, etc.

*If you or your Club would like to be involved / informed, please make [contact](#) with us at Nelson Bay Hockey Club. We are very keen to work together with you to help bring our local sporting opportunities into the 21st Century.*
